REASONS FOR ALLOWANCE

13. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, at a subsequent point in time, automatically propagating the change to a dependent software module residing in a second project, by refactoring the dependent software module based on the recorded meta data about the refactoring that occurred to the software module of the first project; wherein the dependent software module is refactored with assistance of a symbol table used for resolving symbol references, and wherein said automatically propagating step includes: copying symbol information about the particular symbol used for the software module of the first project into the symbol table used for refactoring the dependent software module as substantially recited in independent claims 1, 16, 31, and 45.

The closest cited prior art, Li teaches a method of refactoring a software module. However, Li fails to teach at a subsequent point in time, automatically propagating the change to a dependent software module residing in a second project, by refactoring the dependent software module based on the recorded meta data about the refactoring that occurred to the software module of the first project; wherein the dependent software module is refactored with assistance of a symbol table used for resolving symbol references, and wherein said automatically propagating step includes: copying symbol information about the particular symbol used for the software module of the first project into the symbol table used for refactoring the dependent software module as substantially recited in independent claims 1, 16, 31, and 45; and as pointed out by the applicant's remarks/arguments on pg. 17, par. 2 to pg. 22, par. 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
